Bunker

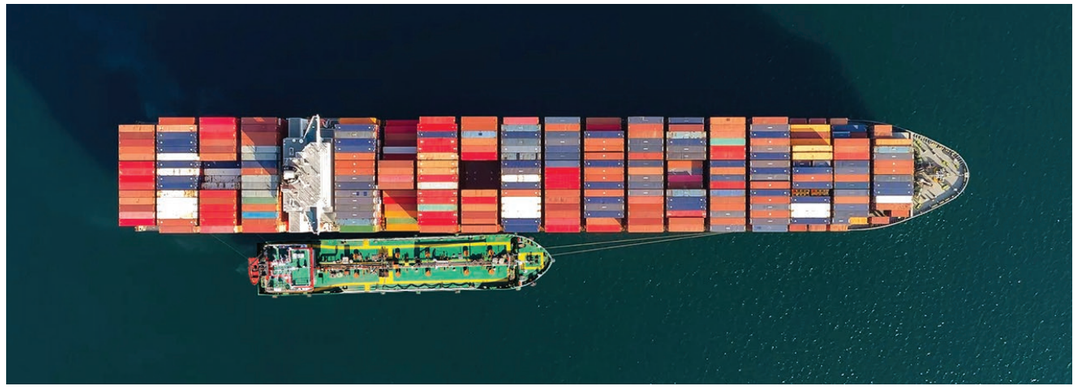
Asmira, combining a proud 50-year history in the sector with an innovation-driven approach, holds a 65% share of the yacht market and 45% of the ship market in the Aegean region.

With its duty-paid and duty-free product range compliant with ISO 8217:2017 and EN 590 standards, the company has become one of the most preferred fuel suppliers in the Turkish ship and yacht fuel supply market, reaching more than 50 refueling points from Gemlik to Alanya.

In 2025, Asmira further strengthened its position in fuel supply services by renewing its fleet with the addition of a double-hulled bunker barge, Kumbor, expanding its service network and enhancing its operational capabilities.



Yacht Bunkering

As Asmira Marine, we provide premium yacht bunkering services for yachts and superyachts at the highest standards. With over 50 bunker points and 10 marina fuel stations, we deliver reliable and efficient fuel supply across Turkey and the European coasts, ensuring seamless service wherever our network reaches.

Our experienced team delivers fast, safe, and seamless bunkering services tailored to the needs of the yachting industry.

At every port we serve, we are committed to quality, reliability, and operational excellence.
